Together we can make change!
Regina Sustainable Development Goals
What is an SDG?
A Sustainable Development Goal (SDG) is a globally agreed-upon set of objectives designed to address the most significant challenges facing humanity, while simultaneously promoting sustainable development. The SDGs consist of 17 goals covering a wide range of economic, social, and environmental issues. These goals aim to eradicate poverty, end hunger, ensure access to quality education and healthcare, achieve gender equality, promote clean energy and sustainable infrastructure, combat climate change, protect biodiversity, and foster peaceful and inclusive societies, among other objectives. Each goal is interconnected and requires collaborative efforts from governments, businesses, civil society organizations, and individuals to achieve meaningful progress. The SDGs serve as a universal framework guiding global development efforts towards a more equitable, resilient, and sustainable future for all.

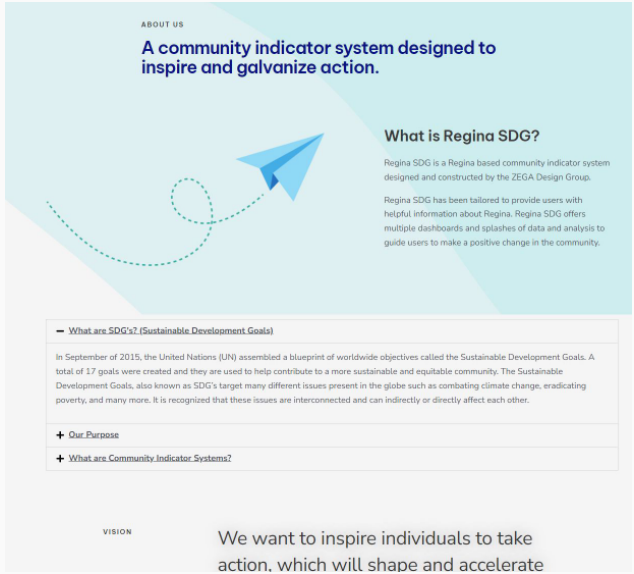
What are Regina's Priorities?



ABOUT US
A community indicator system designed to inspire and galvanize action.
What is Regina SDG?
Regina SDG is a Regina based community indicator system designed and constructed by the ZEGA Design Group.
Regina SDG has been tailored to provide users with helpful information about Regina. Regina SDG offers multiple dashboards and splashes of data and analysis to guide users to make a positive change in the community.
What are SDG's? (Sustainable Development Goals)
In September of 2015, the United Nations (UN) assembled a blueprint of worldwide objectives called the Sustainable Development Goals. A total of 17 goals were created and they are used to help contribute to a more sustainable and equitable community. The Sustainable Development Goals, also known as SDG's target many different issues present in the globe such as combating climate change, eradicating poverty, and many more. It is recognized that these issues are interconnected and can indirectly or directly affect each other.
Our Purpose
What are Community Indicator Systems?
VISION
We want to inspire individuals to take action, which will shape and accelerate

UNITED NATIONS. 17. SDG.
17 SDG, 17 goals, all aiming for a sustainable world.
The 17 SDGs build on the success of the Millennium Development Goals (MDGs) and aim to address a broader range of interconnected global challenges, including poverty, inequality, climate change, environmental degradation, peace, and justice.
