

## Summarized Customer Notes

---

- The accordions implemented throughout are good, keep them.
- The airplane animation on the “About” page is good, but it is recommended that the airplanes point down. (Dynamically help the reader scroll downwards)
- Have the accordion be more visible at the top of the page, so users know it is there, even without any help
- Graphics should all point down.
- The content for the “About” page is good, nothing much needs to be changed.
- SDG 6 Page: Make it smaller to see all 6 goals in the frame
- Give context to all the 6 SDGs (Title, etc)
- The hover SDGs are brighter (neon), make sure the colours are consistent throughout
- 17 SDG pages: Separate the headings from descriptions (all caps, font change, etc)
- Make sure 17 SDG designs are consistent, with both each other and the official designs.
